

GRAB BARS AND ACCESORIES FOR A BARRIER-FREE WASHROOM

SEATS Folding seat

AM0201C Bright finish

AM0201CS Satin finish

General description

- Folding seat made in stainless steel AISI 304, satin or bright finish.
- Suitable to achieve barrier-free accessibility in bathrooms and public spaces. It can be installed inside the shower.
- · Highest durability and rusting resistance. Easy cleaning.
- Designed to withstand a maximum load of 120 kg, provided it is properly mounted to the wall.
- Structural assembly shall be of welded construction and all exposed edges and corners shall be radiused and/or deburred.
- Fulfils the requirements of the EN 16139 standard ("Furniture – Strength, durability and safety – Requirements for non-domestic seating").

Components & materials

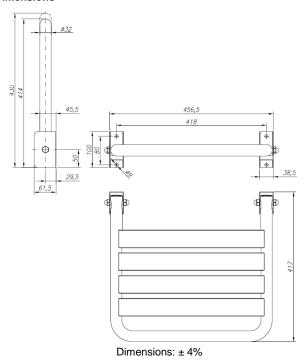

- AM0201C: folding seat made in stainless steel AISI 304, bright finish.
- AM0201CS: folding seat made in stainless steel AISI 304, satin finish.
- SLOTS: 4 for water drainage made in stainless steel AISI 304, 1.7 mm thick.
- TUBE FRAME: made in stainless steel AISI 304 tube Ø 32 mm and 1.5 mm thick with rounded corners for maximum safety.
- WALL BRACKETS: 2 made in stainless steel AISI 304, 2.6 mm thick, fixed to the tub with one shaft, made in stainless steel as well, diameter 10 mm and metric 6 mm in both terminals.

Technical Specifications

Tube diameter	Ø 32 mm
Tube Thickness	1.5 mm
Max. Supported load (*)	120 kg
Maximum force supported (*)	1,177 N

(*) Properly mounted to the wall

Dimensions

Operation

Change manually the position of the folding seat to mount it in vertical position or in horizontal position.

Mounting

Recommended heights distance from the floor

430-510 mm from the ground to the top of the seat.
